Assessment POWERBI-443383-FINAL

Thinkific User ID: 43151845

Full Name: Obse, Girum

Email Address: giruml2020@gmail.com

Respondent ID: 1666

Date Started: 07/26/2021 9:47:30 PM

Date Completed: 07/26/2021 10:32:22 PM

Attempt: 1

Question Topic

Num	Question	
	Respondent's Answer	Correct Answer

Introducing Power BI Service

Earned 10 of 11 points (91%).

1. Which of the following is possible in Power BI Service, but not Power BI Desktop?

☐ Creating interactive reports
☐ Building relational data models
☒ Configuring gateways and dataflows
☐ Connecting to multiple data sources

☐ Creating interactive reports
☐ Building relational data models
☒ Configuring gateways and dataflows
☐ Connecting to multiple data sources

Explanation: None.

2. Which of the following can be found within a Power BI Service workspace?

☐ Datasets
☐ Reports
☐ Dashboards
☒ All of the above

☐ Datasets
☐ Reports
☐ Dashboards
☒ All of the above

Explanation: None.

3. Which type of workspace can you access with a Free Power BI Service account?

☐ My Workspace
☒ Workspaces
☐ Both types of workspaces can be accessed with a free account
☐ Neither type of workspace can be accessed with a free account

☒ My Workspace
☐ Workspaces
☐ Both types of workspaces can be accessed with a free account
☐ Neither type of workspace can be accessed with a free account

Explanation: None.

4. What feature is available to Power BI Premium users that isn't available to Pro users?

☐ Dataflows
☐ Scheduled Refresh
☒ Machine Learning Models
☐ Publish to Web

☐ Dataflows
☐ Scheduled Refresh
☒ Machine Learning Models
☐ Publish to Web

Explanation: None.

5. Which type of Power BI Service account is licensed based on dedicated capacity (vs. number of users), and best for enterprise-wide deployment?

- ☐ Free
- ☐ Pro
- ☒ Premium
- ☐ All of the above

- ☐ Free
- ☐ Pro
- ☒ Premium
- ☐ All of the above

Explanation: None.

6. Which of the following resources can be accessed directly from the Power BI Service interface?

- ☐ Power BI Community forums
- ☐ Support Options
- ☐ Microsoft Training Videos
- ☒ All of the above

- ☐ Power BI Community forums
- ☐ Support Options
- ☐ Microsoft Training Videos
- ☒ All of the above

Explanation: None.

7. Which type of Power BI Service account allows you to connect to 70+ data sources?

- ☐ Free
- ☐ Pro
- ☐ Premium
- ☒ All of the above

- ☐ Free
- ☐ Pro
- ☐ Premium
- ☒ All of the above

Explanation: None.

8. Which of the following is possible in BOTH Power BI Desktop and Power BI Service?

- ☐ Publishing apps and workspaces
- ☒ Creating new visuals from scratch
- ☐ Creating table relationships
- ☐ Adding DAX measures

- ☐ Publishing apps and workspaces
- ☒ Creating new visuals from scratch
- ☐ Creating table relationships
- ☐ Adding DAX measures

Explanation: None.

9. Which of the following statements is NOT true about Workspaces?

- ☐ They require a Pro license
- ☐ They can contain dataflows
- ☒ They can be shared with any other user (free or pro)
- ☐ They can contain multiple dashboards, reports and datasets

- ☐ They require a Pro license
- ☐ They can contain dataflows
- ☒ They can be shared with any other user (free or pro)
- ☐ They can contain multiple dashboards, reports and datasets

Explanation: None.

10. Which of the following is NOT possible within the Power BI Service environment?

- ☒ Creating DAX measures
- ☐ Creating new reports and dashboards
- ☐ Connecting to databases, flat files, and data models
- ☐ Sharing reports with other users and teams

- ☒ Creating DAX measures
- ☐ Creating new reports and dashboards
- ☐ Connecting to databases, flat files, and data models
- ☐ Sharing reports with other users and teams

Explanation: None.

11. What is the easiest way to collaborate with a team on all of your content?

- ☒ Share a workspace
- ☐ Publish an app
- ☐ Publish to web
- ☐ Share a report

- ☒ Share a workspace
- ☐ Publish an app
- ☐ Publish to web
- ☐ Share a report

Explanation: None.

12. The admin portal allows you to:

- ☐ Configure your tenant settings
- ☐ Apply custom branding
- ☐ Monitor usage across your organization
- ☒ All of the above

- ☐ Configure your tenant settings
- ☐ Apply custom branding
- ☐ Monitor usage across your organization
- ☒ All of the above

Explanation: None.

Connecting to Data

Earned 12 of 14 points (86%).

13. Standard Mode Gateways support which of the following?

- ☐ Multiple users
- ☐ Integration with PowerApps and Flow
- ☐ Dataflows
- ☒ All of the above

- ☐ Multiple users
- ☐ Integration with PowerApps and Flow
- ☐ Dataflows
- ☒ All of the above

Explanation: None.

14. Suppose you wanted to enable a scheduled refresh for a local file on your computer. What would you need to set up to do so?

- ☐ Quick Insights
- ☐ Natural Language Queries
- ☐ Data Driven Alerts
- ☒ A Data Gateway

- ☐ Quick Insights
- ☐ Natural Language Queries
- ☐ Data Driven Alerts
- ☒ A Data Gateway

Explanation: None.

15. Why should you offset the dataflow and dataset scheduled refresh times?

- ☐ If they run concurrently none of them will refresh properly
- ☒ If they run concurrently the dataset won't reflect recent updates
- ☐ If they run concurrently the system will crash
- ☐ If they run concurrently the dataflow won't reflect recent updates

- ☐ If they run concurrently none of them will refresh properly
- ☒ If they run concurrently the dataset won't reflect recent updates
- ☐ If they run concurrently the system will crash
- ☐ If they run concurrently the dataflow won't reflect recent updates

Explanation: None.

16. When you connect to an entire Excel file, what type of resource is created in Power BI Service?

- ☐ Dataset
- ☒ Workbook
- ☐ Report
- ☐ Dashboard

- ☐ Dataset
- ☒ Workbook
- ☐ Report
- ☐ Dashboard

Explanation: None.

17. What is the LAST step you need to take so a dataflow is usable as a data source in Power BI?

- ☐ Apply transformations
- ☐ Save the dataflow
- ☒ Refresh the dataflow
- ☐ Name the dataflow

- ☐ Apply transformations
- ☐ Save the dataflow
- ☒ Refresh the dataflow
- ☐ Name the dataflow

Explanation: None.

18. What is the best way to keep your reports in Power BI Service up to date?

- ☐ Configure custom branding
- ☐ Set up a data gateway
- ☐ Use data-driven alerts
- ☒ Enable scheduled refresh

- ☐ Configure custom branding
- ☐ Set up a data gateway
- ☐ Use data-driven alerts
- ☒ Enable scheduled refresh

Explanation: None.

19. In which of the following scenarios could dataflows be used?

- | | |
|----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
| <input type="radio"/> Creating ETL processes that refresh on different schedules | <input type="radio"/> Creating ETL processes that refresh on different schedules |
| <input type="radio"/> Creating a centralized source of truth for commonly used data sources | <input type="radio"/> Creating a centralized source of truth for commonly used data sources |
| <input type="radio"/> Creating a query that can be accessed from multiple Power BI Desktop reports | <input type="radio"/> Creating a query that can be accessed from multiple Power BI Desktop reports |
| <input checked="" type="radio"/> All of the above | <input checked="" type="radio"/> All of the above |

Explanation: None.

20. What would you create to use the same query across multiple reports?

- | | |
|---------------------------------------------|---------------------------------------------|
| <input type="radio"/> Row-Level Security | <input type="radio"/> Row-Level Security |
| <input type="radio"/> An App | <input type="radio"/> An App |
| <input checked="" type="radio"/> A Dataflow | <input checked="" type="radio"/> A Dataflow |
| <input type="radio"/> A Data Gateway | <input type="radio"/> A Data Gateway |

Explanation: None.

21. Which of the following is TRUE about dataflows?

- | | |
|------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| <input type="radio"/> They are queries that run independently within Power BI Service | <input checked="" type="radio"/> They are queries that run independently within Power BI Service |
| <input checked="" type="radio"/> They act like a bridge that connects your local data to Power BI Service in the cloud | <input type="radio"/> They act like a bridge that connects your local data to Power BI Service in the cloud |
| <input type="radio"/> They are created and built in Power BI Desktop | <input type="radio"/> They are created and built in Power BI Desktop |
| <input type="radio"/> All of the above | <input type="radio"/> All of the above |

Explanation: None.

22. When you connect to data tables within an Excel file, what type of resource is created in Power BI Service?

- | | |
|-------------------------------------------|------------------------------------------|
| <input type="radio"/> Dataset | <input checked="" type="radio"/> Dataset |
| <input checked="" type="radio"/> Workbook | <input type="radio"/> Workbook |
| <input type="radio"/> Report | <input type="radio"/> Report |
| <input type="radio"/> Dashboard | <input type="radio"/> Dashboard |

Explanation: None.

23. What's the difference in uploading an Excel file into Power BI vs importing Excel data into Power BI?

- | | |
|---------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <input type="radio"/> Only Pro users can upload an entire Excel file | <input type="radio"/> Only Pro users can upload an entire Excel file |
| <input type="radio"/> Uploading an Excel file creates a new dataset | <input type="radio"/> Uploading an Excel file creates a new dataset |
| <input checked="" type="radio"/> You can interact with workbook contents directly within the Power BI Service environment | <input checked="" type="radio"/> You can interact with workbook contents directly within the Power BI Service environment |
| <input type="radio"/> It isn't possible to upload an entire Excel file | <input type="radio"/> It isn't possible to upload an entire Excel file |

Explanation: None.

24. Which of these best represents an entity?

- | | |
|-----------------------------------------------|-----------------------------------------------|
| <input type="radio"/> A formula | <input type="radio"/> A formula |
| <input checked="" type="radio"/> A data table | <input checked="" type="radio"/> A data table |
| <input type="radio"/> A user | <input type="radio"/> A user |
| <input type="radio"/> A line chart | <input type="radio"/> A line chart |

Explanation: None.

25. Which of the following is true about Personal Mode data gateways?

- | | |
|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| <input type="radio"/> They can be used to refresh any type of source data | <input type="radio"/> They can be used to refresh any type of source data |
| <input type="radio"/> They can be configured on both Windows and Mac operating systems | <input type="radio"/> They can be configured on both Windows and Mac operating systems |
| <input checked="" type="radio"/> They create a connection between your local server and the cloud | <input checked="" type="radio"/> They create a connection between your local server and the cloud |
| <input type="radio"/> All of the above | <input type="radio"/> All of the above |

Explanation: None.

26. Which of the following CANNOT be loaded into Power BI Service?

- | | |
|-----------------------------------------------|-----------------------------------------------|
| <input type="radio"/> Excel Data Models | <input type="radio"/> Excel Data Models |
| <input type="radio"/> CSV/Text Files | <input type="radio"/> CSV/Text Files |
| <input type="radio"/> Power BI Files | <input type="radio"/> Power BI Files |
| <input checked="" type="radio"/> Floppy disks | <input checked="" type="radio"/> Floppy disks |

Explanation: None.

Reports & Dashboards

Earned 11 of 14 points (79%).

27. What can you use to capture static states of a visual or report page?

- | | |
|---------------------------------------------|-----------------------------------------------------|
| <input type="radio"/> Static RLS | <input type="radio"/> Static RLS |
| <input type="radio"/> Personal bookmarks | <input checked="" type="radio"/> Personal bookmarks |
| <input checked="" type="radio"/> Dashboards | <input type="radio"/> Dashboards |
| <input type="radio"/> All of the above | <input type="radio"/> All of the above |

Explanation: None.

28. In which mode is the report shown above being viewed?

- | | |
|-----------------------------------------------|-----------------------------------------------|
| <input type="radio"/> Dashboard Mode | <input type="radio"/> Dashboard Mode |
| <input checked="" type="radio"/> Editing Mode | <input checked="" type="radio"/> Editing Mode |
| <input type="radio"/> Reading Mode | <input type="radio"/> Reading Mode |
| <input type="radio"/> Dark Mode | <input type="radio"/> Dark Mode |

Explanation: None.

29. Which of these actions can you perform from the report reading view?

- | | |
|-------------------------------------------------------|-------------------------------------------------------|
| <input type="radio"/> Insert text, shapes, or buttons | <input type="radio"/> Insert text, shapes, or buttons |
| <input type="radio"/> Create new visuals | <input type="radio"/> Create new visuals |
| <input checked="" type="radio"/> Apply filters | <input checked="" type="radio"/> Apply filters |
| <input type="radio"/> All of the above | <input type="radio"/> All of the above |

Explanation: None.

30. The quick insights tool:

- | | |
|--------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| <input type="radio"/> Allows you to ask questions about your data using natural language | <input type="radio"/> Allows you to ask questions about your data using natural language |
| <input type="radio"/> Captures static states of a visual or report page | <input type="radio"/> Captures static states of a visual or report page |
| <input checked="" type="radio"/> Searches for trends and patterns in your dataset | <input checked="" type="radio"/> Searches for trends and patterns in your dataset |
| <input type="radio"/> Shows how data is linked across multiple data sources & dependencies | <input type="radio"/> Shows how data is linked across multiple data sources & dependencies |

Explanation: None.

31. How can you add tiles to a dashboard?

- | | |
|----------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| <input type="radio"/> By pinning a visual from a report | <input type="radio"/> By pinning a visual from a report |
| <input type="radio"/> By pinning an entire report using the Pin Live Page option | <input type="radio"/> By pinning an entire report using the Pin Live Page option |
| <input type="radio"/> By using natural language queries to generate new tiles | <input type="radio"/> By using natural language queries to generate new tiles |
| <input checked="" type="radio"/> All of the above | <input checked="" type="radio"/> All of the above |

Explanation: None.

32. Which of these is a difference between a Report and a Dashboard?

- | | |
|----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| <input type="radio"/> Reports are only available for Pro users | <input type="radio"/> Reports are only available for Pro users |
| <input checked="" type="radio"/> Reports are part of the building blocks of Power BI Service | <input type="radio"/> Reports are part of the building blocks of Power BI Service |
| <input type="radio"/> Reports can only contain visuals from individual datasets or workbooks | <input checked="" type="radio"/> Reports can only contain visuals from individual datasets or workbooks |
| <input type="radio"/> Reports are only available in Power BI Desktop | <input type="radio"/> Reports are only available in Power BI Desktop |

Explanation: None.

33. How can you insert a basic visual in Power BI Service?

- | | |
|-----------------------------------------------------------|-----------------------------------------------------------|
| <input type="radio"/> Select a visualization type | <input type="radio"/> Select a visualization type |
| <input type="radio"/> Drag a field into the report canvas | <input type="radio"/> Drag a field into the report canvas |
| <input checked="" type="radio"/> Both A and B | <input checked="" type="radio"/> Both A and B |
| <input type="radio"/> None of the above | <input type="radio"/> None of the above |

Explanation: None.

34. Which of these is NOT an example of a data driven alert?

- | | |
|----------------------------------------------------------------------------|----------------------------------------------------------------------------|
| <input type="radio"/> Alert me when number of reviews equals 100 | <input type="radio"/> Alert me when number of reviews equals 100 |
| <input type="radio"/> Alert me when revenue passes \$100K | <input type="radio"/> Alert me when revenue passes \$100K |
| <input checked="" type="radio"/> Alert me when my manager opens the report | <input checked="" type="radio"/> Alert me when my manager opens the report |
| <input type="radio"/> Alert me when lead time drops below 7 days | <input type="radio"/> Alert me when lead time drops below 7 days |

Explanation: None.

35. Can you add an image to a report in Power BI Service?

- | | |
|--------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| <input type="radio"/> Yes, by going to Insert > Image | <input type="radio"/> Yes, by going to Insert > Image |
| <input checked="" type="radio"/> Yes, by adding it to the plot area of a blank chart | <input checked="" type="radio"/> Yes, by adding it to the plot area of a blank chart |
| <input type="radio"/> Yes, by dragging it from your files | <input type="radio"/> Yes, by dragging it from your files |
| <input type="radio"/> No, you can only add images in Desktop | <input type="radio"/> No, you can only add images in Desktop |

Explanation: None.

36. What can you use to draw on & comment on reports & dashboards?

- | | |
|---------------------------------------------------|--------------------------------------------------|
| <input type="radio"/> Power BI Desktop | <input type="radio"/> Power BI Desktop |
| <input checked="" type="radio"/> Power BI Service | <input type="radio"/> Power BI Service |
| <input type="radio"/> Power BI Mobile | <input checked="" type="radio"/> Power BI Mobile |
| <input type="radio"/> All of the above | <input type="radio"/> All of the above |

Explanation: None.

37. Which type of visual is NOT included in the report shown above?

- | | |
|--------------------------------------|--------------------------------------|
| <input checked="" type="radio"/> KPI | <input checked="" type="radio"/> KPI |
| <input type="radio"/> Donut | <input type="radio"/> Donut |
| <input type="radio"/> Matrix | <input type="radio"/> Matrix |
| <input type="radio"/> Slicer | <input type="radio"/> Slicer |

Explanation: None.

38. Which tool automatically generates charts and comments based on trends and patterns in a dataset?

- ☐ Matrix Visuals
- ☐ KPI Cards
- ☒ Quick Insights
- ☐ Dataflows

- ☐ Matrix Visuals
- ☐ KPI Cards
- ☒ Quick Insights
- ☐ Dataflows

Explanation: None.

39. Where can you add visuals from multiple datasets in a single page?

- ☐ Reports
- ☒ Dashboards
- ☐ Dataflows
- ☐ All of the above

- ☐ Reports
- ☒ Dashboards
- ☐ Dataflows
- ☐ All of the above

Explanation: None.

40. In which mode is the report shown above being viewed?

- ☐ Dashboard Mode
- ☐ Editing Mode
- ☒ Reading Mode
- ☐ Dark Mode

- ☐ Dashboard Mode
- ☐ Editing Mode
- ☒ Reading Mode
- ☐ Dark Mode

Explanation: None.

Sharing & Collaboration

Earned 4 of 6 points (67%).

41. Which of the following is available within a standard usage report?

- ☐ Unique viewers
- ☐ Report page views
- ☐ Report opens
- ☒ All of the above

- ☐ Unique viewers
- ☐ Report page views
- ☐ Report opens
- ☒ All of the above

Explanation: None.

42. Can you share reports & dashboards with more than 100 recipients?

- ☐ No, reports & dashboards cannot be shared
- ☒ Yes, you can share up to 500 at a time
- ☐ No, 100 is the maximum capacity
- ☐ Yes, by splitting into multiple sends or using groups

- ☐ No, reports & dashboards cannot be shared
- ☐ Yes, you can share up to 500 at a time
- ☐ No, 100 is the maximum capacity
- ☒ Yes, by splitting into multiple sends or using groups

Explanation: None.

43. Which of these sharing options makes your reports publicly accessible?

- ☒ Publish to Web
- ☐ Sharing Workspaces
- ☐ Publishing Apps
- ☐ Exporting Reports to PDF/PPT

- ☒ Publish to Web
- ☐ Sharing Workspaces
- ☐ Publishing Apps
- ☐ Exporting Reports to PDF/PPT

Explanation: None.

44. How can you access the underlying data to build and customize your own usage metrics report?

- ☐ Choose "Save report as" from the file menu
- ☐ Choose "Edit" from the file menu
- ☐ Pin tiles to the usage metrics report
- ☒ None of the above

- ☒ Choose "Save report as" from the file menu
- ☐ Choose "Edit" from the file menu
- ☐ Pin tiles to the usage metrics report
- ☐ None of the above

Explanation: None.

45. Which of these user permission levels can't access datasets, dataflows, or edit content

- ☒ Viewer
- ☐ Contributor
- ☐ Member
- ☐ Admin

- ☒ Viewer
- ☐ Contributor
- ☐ Member
- ☐ Admin

Explanation: None.

46. What's one difference between Apps and Workspaces?

- ☐ Apps can include multiple reports and dashboards
- ☐ Apps can be shared with other Pro users
- ☒ Apps allow you to selectively publish specific reports, dashboards and datasets
- ☐ Apps are only accessible to individual users

- ☐ Apps can include multiple reports and dashboards
- ☐ Apps can be shared with other Pro users
- ☒ Apps allow you to selectively publish specific reports, dashboards and datasets
- ☐ Apps are only accessible to individual users

Explanation: None.

Row-Level Security

Earned 4 of 4 points (100%).

47. Which of these is a common use case for row-level security?

- ☐ Designing a mobile version of your report
- ☒ Managing what users can and cannot view
- ☐ Keeping reports up to date
- ☐ Learning how reports are being used and by whom

- ☐ Designing a mobile version of your report
- ☒ Managing what users can and cannot view
- ☐ Keeping reports up to date
- ☐ Learning how reports are being used and by whom

Explanation: None.

48. What is the USERPRINCIPALNAME function used for?

- ☐ Add new users to a workspace
- ☐ Set up static roles
- ☐ Generate usage reports
- ☒ Set up dynamic roles

- ☐ Add new users to a workspace
- ☐ Set up static roles
- ☐ Generate usage reports
- ☒ Set up dynamic roles

Explanation: None.

49. How can you apply row-level security?

- ☐ Entering your username and password
- ☐ Individually locking each row
- ☐ Adding slicers to filter views
- ☒ Using DAX statements to define views

- ☐ Entering your username and password
- ☐ Individually locking each row
- ☐ Adding slicers to filter views
- ☒ Using DAX statements to define views

Explanation: None.

50. Suppose you use a report to track KPIs for different regions. How can you make sure each regional manager can only see the data for their region?

- ☐ Admin portal settings
- ☒ Row-level security
- ☐ Tenant settings
- ☐ Usage reports

- ☐ Admin portal settings
- ☒ Row-level security
- ☐ Tenant settings
- ☐ Usage reports

Explanation: None.

Time Used: 00:44:52

Final Score: 84%
